Case Thread

User	Note	Date
USAC	Linda, If this is still an issue, please do a new form 498 as it has worked for others in this situation	12/19/2016 4:35 PM EST
Linda Riley	I've been notified of an update, but I see nothing new?	10/11/2016 9:23 AM EDT
Linda Riley	As requested, a copy of our FCC Form 498 is attached.	10/10/2016 11:32 AM EDT
USAC	Linda, In order to troubleshoot this correctly, we are going to need a screenshot of your 498 showing that the child entity was listed on the form	10/7/2016 10:14 AM EDT
Linda Riley	I started a new BEAR form under the child BEN. Getting the same message. It will not allow the 498 to show.	10/6/2016 11:29 AM EDT
USAC	Linda, Please attaché / send a screenshot(s) showing the part of the applicant form 498 that shows the additional BEN numbers listed. We want to make sure that the child entity 69605 is actually listed on the form. Also try starting a new BEAR form for the child entity	10/6/2016 10:57 AM EDT
USAC	Linda, After a recent system enhancement, BENs that are now child entities in EPC can be added to the "Additional BENs" section of the Form 498. This will allow the applicant to file a Form 472 BEAR for a previous year FRN that was filed under a particular BEN that is now a child entity in EPC. From the 8/12 News Brief: http://usac.org/sl/tools/news-briefs/preview.aspx?id=712 In the transition from our legacy system to EPC, the status of some entities changed. For example, a school district that used the entity number of its administration building to file program forms in the legacy system may have created a new entity number for the school district in EPC. In this and other similar cases, the entity number of the previous year applicant (in our example, the administration building entity number) cannot file BEAR Forms for FY2015 and previous funding years. To remedy this, a billed entity (independent school, independent library, school district, library system, or consortium) filing an FCC Form 498 should proceed as follows: Go to the section of the form marked "Block 14: Billed Entity Number/FCC Form 498 Association." Add the entity numbers – one at a time – of any entities that will be filing BEAR Forms for your entity for FY2015 and previous funding years. After you enter each entity number, check to make sure that the entity name that appears in the "Billed Entity Name" field is the correct entity. NOTE: This system enhancement was added recently. If you have been unable to enter these entity numbers in your FCC Form 498, please try again. Remember that you must re-certify your FCC Form 498 after you make any modification or change.	10/6/2016 8:11 AM EDT
